

Astro Self Study

Setting Up Your Astro.com Account

I am so excited for you!

Yay! You want to do some Astro Self Study! This is such a great idea and I am happy to support you! This slideshow will walk you through how to set up your own free Astro.com account AND how to set this account up so your chart matches the type of house system I use to practice astrology.

The house system is important because it will change the look of the chart. As you do your self study research keep in mind that there are different systems and types of Astrology practices. Don't take ANYTHING too seriously online unless you fully trust where the info is coming from. There absolutely IS great info online but, it's still the internet. Nothing should ever be scary or presented as good/evil or be fated in danger or injury. That is not what Astro is about.

If you have ANY questions please reach out. This is my business but it's also my life purpose so my main goal is always to connect people to astrology more and more. I want you to study your chart. I want to help you. I have excellent boundaries around this. If you ask a question and I feel that it would make more sense for us to schedule an appointment I will let you know. I have several options for returning clients, from a \$26 check in to a \$53 forecast just for these kinds of questions. If I can quickly answer your questions I will happily do that. You can email me at diannafontes.artist@astroartistry.com

Good luck with your studies and your journey to learn more about the amazingly vast practice of Astrology!

Lots of Love, Dianna
